

# ADA Judge

---

<https://ada18-judge.csie.org>

## Original Project

---

<https://github.com/bobogei81123/adajudge>

<https://github.com/tzupengwang/adajudge>

## Installation

---

```
# install nvm
# https://github.com/creationix/nvm

# install node
nvm install v10.10.0

# install yarn
# https://yarnpkg.com/lang/en/docs/install/#debian-stable

# install mongodb
sudo apt install mongodb

# install gulp
yarn global add gulp

# Install package, it would take a while
yarn

# Make isolate
(cd isolate && make)

# Init
gulp init
# Semantic auto install is bugged
# So choose extend my settings > automatic manually when prompted

# Change src/server/config.js
# example: config.example.js

# Build
gulp build

# Unzip fonts.tar.gz in dist/static
tar xvf fonts.tar.gz dist/static/

# Link MathJax
ln -s ../../node_modules/mathjax/ dist/static/MathJax
```

```
# Run server  
cd dist  
node server.js
```

## Issue

---

Kindly submit any issue you found on github.
