Installation

```
# make sure you have node, npm, mongo installed
# make sure mongod is started
# make sure gulp is installed, or do
npm install -g gulp

# Install package, it would take a while
npm install

# Make zbox
(cd judger && make)

gulp init
# Semantic auto install is bugged
# So choose extend my settings > automatic manually when prompted

gulp build

# Run server
cd dist
node server.js
```
